

PROTECTION OF THE LADIES MILE AVENUE OF TREES

SUBMISSION TO QUEENSTOWN LAKES DISTRICT COUNCIL IN RESPECT OF THE COUNCIL'S 2016/2017 ANNUAL PLAN

With the objective of protecting and saving the Ladies Mile avenue of trees, all of the below named residents of the Queenstown Lakes District Council rating area make the following submission to Council in respect of its Annual Plan.

Council is requested to:

1. Provide in the plan for the allocation of \$500,000.00 to assist it to pay one half of the cost of relocating underground the existing overhead power lines on Ladies Mile (SH 6).
2. Urge Delta to commit to funding the balance of the relocation cost.
3. Allocate sufficient funds to cover the cost of the next required pruning of at least the 29 trees on the Walker property on Ladies Mile.
4. Take whatever steps are required in the Annual Plan or otherwise to formally protect at least the 29 Walker trees on Ladies Mile, including by seeking a variation to the District Plan to include those trees in the Protected Trees Appendix 3.

Reasons for Submission

1. The Ladies Mile avenue of trees is an iconic, much admired, and magnificent main gateway to Queenstown, and the loss of the trees would be a short and long term tragedy for the local community.
2. The relocation underground of the present unsightly and dangerous overhead power lines is something that this Council should be actively and continuously promoting and funding, for the overall benefit of the community.

This submission is signed by each of the following QLDC rating area residents:

1. Name:	Darlene Golding

With the objective of protecting and saving the Ladies Mile avenue of trees, all of the below named residents of the Queenstown Lakes District Council rating area make the following submission to Council in respect of its Annual Plan.

Council is requested to:

1. Provide in the plan for the allocation of \$500,000.00 to assist it to pay one half of the cost of relocating underground the existing overhead power lines on Ladies Mile (SH 6).
2. Urge Delta to commit to funding the balance of the relocation cost.
3. Allocate sufficient funds to cover the cost of the next required pruning of at least the 29 trees on the Walker property on Ladies Mile.
4. Take whatever steps are required in the Annual Plan or otherwise to formally protect at least the 29 Walker trees on Ladies Mile, including by seeking a variation to the District Plan to include those trees in the Protected Trees Appendix 3.

Reasons for Submission

1. The Ladies Mile avenue of trees is an iconic, much admired, and magnificent main gateway to Queenstown, and the loss of the trees would be a short and long term tragedy for the local community.
2. The relocation underground of the present unsightly and dangerous overhead power lines is something that this Council should be actively and continuously promoting and funding, for the overall benefit of the community.

SUBMISSION TO QUEENSTOWN LAKES DISTRICT COUNCIL IN RESPECT OF THE COUNCIL'S 2016/2017 ANNUAL PLAN

With the objective of protecting and saving the Ladies Mile avenue of trees, all of the below named residents of the Queenstown Lakes District Council rating area make the following submission to Council in respect of its Annual Plan.

Council is requested to:

1. Provide in the plan for the allocation of \$500,000.00 to assist it to pay one half of the cost of relocating underground the existing overhead power lines on Ladies Mile (SH 6).
2. Urge Delta to commit to funding the balance of the relocation cost.
3. Allocate sufficient funds to cover the cost of the next required pruning of at least the 29 trees on the Walker property on Ladies Mile.
4. Take whatever steps are required in the Annual Plan or otherwise to formally protect at least the 29 Walker trees on Ladies Mile, including by seeking a variation to the District Plan to include those trees in the Protected Trees Appendix 3.

Reasons for Submission

1. The Ladies Mile avenue of trees is an iconic, much admired, and magnificent main gateway to Queenstown, and the loss of the trees would be a short and long term tragedy for the local community.
2. The relocation underground of the present unsightly and dangerous overhead power lines is something that this Council should be actively and continuously promoting and funding, for the overall benefit of the community.

This submission is signed by each of the following QLDC rating area residents:
